PROFESSIONAL SUMMARY

Final-year Information Systems Engineering student and Full-Stack Software Engineer specialized in .NET 8, Angular, and SQL Server. Proven experience in legacy system modernization, clean code design patterns, and scalable software architecture. Strong foundational knowledge in Cybersecurity, DevSecOps, and Cloud optimization (Azure). Passionate about integrating technical engineering excellence with information security and Artificial Intelligence/Machine Learning innovations.

WORK EXPERIENCE

Full-Stack Software Engineer | *ITSight Consulting - Lima, Peru*

January 2026 – Present

- **Architecture Modernization:** Spearheaded the strategic migration of a complex legacy ecosystem to Angular 18+ and .NET 8, significantly optimizing client-side and server-side performance while ensuring zero service downtime.
- **Data Engineering:** Designed and normalized complex database structures and *Stored Procedures* in SQL Server, transforming rigid schemas into resilient, scalable data models aligned with critical business rules.
- **Code Quality & Refactoring:** Executed a comprehensive refactoring plan applying SOLID and DRY principles, drastically reducing technical debt and accelerating team time-to-market through decoupled and highly testable code.

IT Systems Intern | *Dinet S.A. - Lima, Peru*

April 2025 – September 2025

- **ITSM Management (ITIL):** Designed and architected the GLPI platform implementation, centralizing technical support and transforming incident management based on ITIL best practices, which streamlined operational response times.
- **Mobile Development:** Developed and optimized Android applications for field operations, focusing on efficient code architecture and user experience (UX) to directly increase workforce productivity.
- **Security & Backend:** Co-designed backend (.NET) enhancements for the company's access security systems, strengthening corporate data protection and robust access control mechanisms.
- **Knowledge Transfer:** Managed the technical and functional handoff of the Attendance Control system through targeted mentoring sessions, achieving a seamless transition with zero service disruption and full successor autonomy in record time.

TECHNICAL SKILLS

- **Languages & Backend:** C#, .NET / ASP.NET Core 8, Python (Machine Learning / XGBoost).
- **Frontend:** Angular, React, TypeScript, JavaScript, Astro, HTML5, CSS3.

- **Databases:** SQL Server (Transact-SQL), PostgreSQL, MySQL, MongoDB.
- **DevOps & Cloud:** Git/GitHub, Docker, Azure DevOps, Microsoft Azure (Fundamentals), Linux Servers.
- **Cybersecurity & Frameworks:** ISO 27001 Standards, Pentesting/Ethical Hacking Fundamentals, Vulnerability Assessment Tools (Nessus, Nikto), OSINT, ITIL Framework.
- **Tools & UI:** Power BI, Figma, Azure Vertex AI (Prompt Design).

EDUCATION

Peruvian University of Applied Sciences (UPC) - Information Systems Engineering (2021 – Present)

- **Honors:** PRONABEC Scholar for Academic Excellence.

KEY CERTIFICATIONS

- **Foundational C# with Microsoft** – FreeCodeCamp.
- **Prompt Design in Vertex AI** – Google Cloud Skills.
- **Microsoft Azure Fundamentals (AZ-900)** – Microsoft Learn.
- **Python for Everybody Specialization** – University of Michigan / Coursera.
- **Scrum Fundamentals Certified (SFC)**.
- **Networking Academy Learn-A-Thon** – Cisco.
- **Excel Skills for Business & Power BI** – Macquarie University / Coursera.

PROJECTS AND ADDITIONAL ACHIEVEMENTS

- **Hackathons & Innovation:** Selected participant in the BCP Game Jam (2022), delivering video game solutions under high-pressure environments. Co-creator of cloud-connected IoT automation systems utilizing ESP32 microcontrollers.
